## GENERAL INFORMATION

**Gallup 360** is a systemic herbicide, as an aqueous concentrate, for the control of most broad-leaved and grass weeds, especially common couch, in stubbles or in cultivated land, in cereals, peas harvested dry, field beans and oilseed rape pre-harvest, in orchards and woodlands and forests, on land not intended for re-cropping, for the destruction of grassland prior to re-cropping and for the pre-harvest desiccation of oilseed rape and for weed control on or near water. For use on industrial sites, paths, roadways, in amenity and forest areas.

## RATES OF USE

Crop or situation	Maximum individual dose of product	Maximum number of treatments
Cereal crops: Wheat Barley Oats	4L/ha	One per crop
Oilseed rape Linseed	4L/ha	One per crop
Stubbles of all crops	4L/ha	One per situation
Orchards: Apple Pear Plum Cherry Damson	5L/ha	One per year
Forestry	5L/ha	Two per year
Non-cropped area	6L/ha	Four per year

## APPLICATION

Prepared spray solution should be applied as a medium or coarse quality spray (BCPC definition) at nozzle pressures not exceeding 2.5 bar. Gallup 360 is a systemic herbicide and is active at small doses.

DO NOT spray on windy days or near desirable species.

*Gallup 360 contains 360g/l (30.7% w/w) glyphosate and ethoxylated amine*

ALWAYS READ THE LABEL. USE PESTICIDES SAFELY.
