

MSDS Number: 085

Agrichem (International) Limited

Issue Number: 002

Issue Date: October 2008

Material Safety Data Sheet

SECTION 1 Identification of Product Name and Company	
Agrichem (International) Limited	Industrial Estate, Station Road, Whittlesey, PETERBOROUGH, Cambridgeshire PE7 2EY. Tel: (01733) 204019. Fax: (01733) 204162. e-mail contact: admin@agrichem.co.uk
Product Name:	Sepiret 8368 Green
Synonyms:	
Intended Use:	Seed coating.

SECTION 2 Hazards Identification	
Not considered hazardous.	

SECTION 3 Composition/Information on Ingredients		
Formulation:	Paste at 20 °C Preparation based on surfactants, binders, mineral and synthetic pigments. No dangerous components For wording of listed risk phrases see Section 16.	
<u>IUPAC Names:</u>	<u>Contributory Hazard</u>	<u>CAS Numbers:</u>
		<u>Concentration:</u>

SECTION 4 First Aid Measures	
<u>First Aid</u>	No special measures required.
Inhalation:	Supply fresh air; consult doctors if complaint continues.
Ingestion:	Seek medical attention.
Skin Contact:	Wash immediately with soap and water. Rinse with plenty of water.
Eye Contact:	Rinse opened eye immediately with water for at least 10 minutes.

SECTION 5 Fire Fighting Measures	
Suitable extinguishing agents:	In case of nearby fire cool the drums. Water spray, Carbon dioxide, dry powder. For larger fires spray with water of alcohol resistant foam.
Unsuitable extinguishing media (for safety reasons):	None known.
Special hazard caused by products of combustions:	Toxic fumes (carbon monoxide, carbon dioxide and nitrogen oxides) may be given off when product is exposed to fire. In certain fire conditions, traces of other gases may be given off.
Special protective equipment:	Wear fully protective suite.

SECTION 6 Accidental Release Measures	
Personal protection:	Usual precautionary measures for the handling of chemicals. Wear gloves and goggles. Do not use tools which may create sparks.
Environmental precautions:	Dilute with plenty of water byt prevent from spreading. Do not allow contaminated washing water to reach sewage systems or any water course.
Spillage and Decontamination:	Absorb with liquid binding material (sand, diatomite, acid binders, universal binders, sawdust) and transfer to separate container for recovery or disposal. Wash thoroughly with water, and retain contaminated water for later disposal. Incinerate in approved equipment or landfill according to current local regulations.
Additional information:	No dangerous substance are released.

SECTION 7 Handling and Storage	
Handling:	Take normal precautions for chemical product handling. Ensure good ventilation/exhaustion at the workplace. Do not smoke. Wear gloves and goggles Handle and open container with care.
Storage:	Store indoors at room temperature with adequate ventilation. Store in closed drums. Max shelf life 2 years at room temperature in unopened container. Use polyolefine lining if transferring to other containers.
Packaging:	25kg wide neck HDPE drums.

SECTION 8 Exposure Controls/Personal Protection	
	The usual precautionary measure for handling chemicals should be observed. Have eyewash facilities and security showers nearby.
Occupational Exposure standards:	None assigned in the current edition of the Health and Safety Executive (HSE) publication EH40.
Personal protective equipment:	Respiratory protection: none required. Eye protection: Avoid contact with eyes. Wear tightly sealed goggles. Protection of hands: Avoid contact by using chemically resistant gloves..

SECTION 9 Physical and Chemical Properties	
Appearance:	Green paste at 20 °C
Odour:	Nearly odourless.
Melting Point:	undetermined
Boiling Point:	undetermined
pH:	7.0 – 8.5 (20°C)
Flash Point:	>100°C (NFT 60 103)
Explosion Limits:	Does not present an explosion hazard.
	Auto Ignition Temperature: Not self igniting
	Solubility in Water: Dispersible in water.
	Density: 1.22 ± 0.05g/ml at 20°C
	Viscosity: Dynamic at 20°C 100-500 cPs

SECTION 10 Stability and Reactivity	
Stability:	Avoid packaging in non protected metal drums. Store in closed drums. Do not overheat.
Conditions to avoid:	Hazardous reactions with strong oxidising agents.
Dangerous decomposition products:	No dangerous products known.

SECTION 11 Toxicological Information	
	Product is not classified. It does not have any harmful effects when handled/used according to the instructions for use.
Acute toxicity:	Primary irritant effect: On skin: No irritant effect. On the eyes: No irritating effect.
Sensitisation:	No sensitising effects known.

SECTION 12 Ecological Information

Product is not classified as dangerous according to current legislation.
Do not flush into the environment.

SECTION 13 Disposal Considerations

Waste Disposal: Incinerate or landfill according to local regulations.
(including
containers)

Recommended Water and cleansing agents.
cleansing agents:

SECTION 14 Transport Information

Not classified as Dangerous in the meaning of the transport regulations.

Sea Not classified

Road/Rail Not classified

Air Not classified

SECTION 15 Regulatory Information

Product not classified as dangerous label according to EU Directives/respective national legislation.

SECTION 16 Other Information

Safety phrase: S25 Avoid contact with eyes.

The data given in this sheet is based on current knowledge and experience and is given in good faith but without guarantee of accuracy and no liability is accepted whatsoever for any insufficiency or inaccuracy in such data in any case whatsoever.

The purpose of the Material Safety Data Sheet is to describe the products in terms of their safety requirements. The data does not signify any warranty with regards to materials, properties or use.
