Agrichem (International) Ltd, Industrial Estate, Station Road, Whittlesey, Cambs PE7 2EY Tel: 01733 204019 Fax : 01733 204162

**Agrichem DiaMite Grain Protector** is a desiccant. It is used to provide maximum benefit when the moisture content of the grain is 12-15% or less. Long-term effectiveness is improved if the temperature is high. Grains should always be inspected prior to movement to processors.

#### Directions for Use

**Read this label carefully before opening the container.**

#### Time of Application

**Agrichem DiaMite Grain Protector** may be applied to grains at any stage of preparation, transportation after drying or during storage. It may also be applied thoroughly dusted to the inside of any storage containers for grains.

#### Rates of Use

##### Surface Treatment

Apply at 125g to 250g per sq m.

These applications should be mixed into the top metre of the grain.

Stored grains should be regularly monitored and further applications used if quality issues are found.

#### Crops

**Subject to any protocol put in place by the end user** **Agrichem DiaMite Grain Protector** can be used on ALL grains including Oilseed Rape, Wheat, Barley, Oats, Rye, Triticale, Maize, Rice, Soya, Sorghum, Flax, Linseed, Peas, Beans, Vegetable and Flower Seeds as well as Bird Seed. When used as directed throughout the storage period, after such storage the grains can be used as intended without the removal of the powder subject to the protocol of the end user. A derogation use must be obtained for use on grains grown under Soil Association conditions.

#### Caution

Do not use if this product is damp or the moisture of the grains is higher than recommended.

## PRECAUTIONS

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Avoid breathing dust.

Do not get in eyes, on skin, or on clothing.

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

**To avoid risk to human health and the environment, comply with the instructions for use.**

#### Additional PRECAUTIONS:

Avoid contact with the eyes. Flush exposed eyes with plenty of water and contact a doctor if irritation persists. Eye protection to BSEN standards.

Avoid breathing the dust. Use adequate ventilation and for commercial and prolonged use wear a suitable approved dust mask conforming to EN149FFP2.
